

Digital Video Solutions

OFFERING PROFESSIONAL DIGITAL SERVICES

Netramedia operates a fully digital production solution using broadcast quality cameras, lighting and sound equipment. Your work is digital from start to end as we use a top of the range digital editing system and are able to output your project on many different types of digital media.

We are able to provide film or photographic crews for jobs of any size, no matter how big or small. In the past we have worked with crews with as little as two people up to crews of twenty.

Our video specialists have on average eight years experience in broadcast television and the corporate video market and have worked on films for companies such as Channel 4, RTE and the Extreme Sports Channel on BSKYB.
